Installation and Setup for iPhone

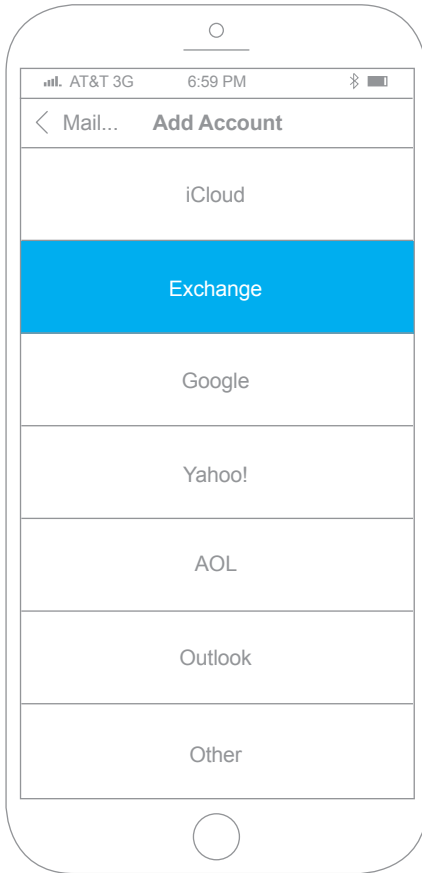

1. On your iPhone Home screen, tap the **Settings** icon (the Gears icon). Scroll down and select **Mail, Contacts, Calendars**.

2. **Select Add Account.**

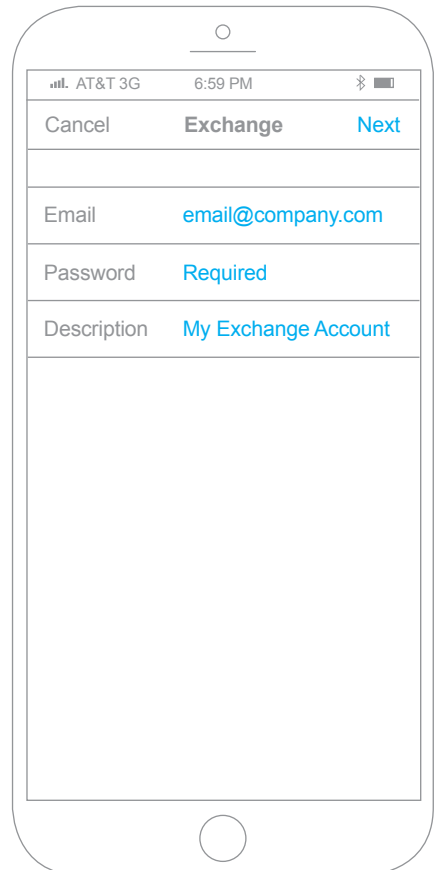

3. Choose **Microsoft Exchange**.

4. Enter your account information.

- **Email:** This is your company email address (for example, **user@company.net**)
- **Username:** This is the username of your account; the same one you use to log in to the Web Client (for example, **user@company.net**)
- **Password:** This is your password (the same one used for the Web Client)

Tap **Next**.

5. Enter the following information:

- **Username:** This will be the same as your email address
- **Server:** mail.*your domain name* or cloudmail.synaq.com
- **Domain:** leave blank

Tap **Save**.

6. Select the services that you wish to sync from the Exchange Server.

Click **Save**.

You have successfully added your Exchange email account on your iOS device

Note: Depending on how much data is in the mailbox it may take some time before your information is completely downloaded into your device.
